Banja Luka, 04 February 2026

Ms. Carmen LUCUT

Journalist

Public Record

SUBJECT: Answers about the Cluj metropolitan ring road (February 04, 2026)

Dear Ms. Lucut,

We thank you for your interest in the issue and for the questions to Integral inženjering ad Laktaši.

Hopefully, following answers and attached press relise will help with your research.

You are always invited to follow through as you find it appropriate.

Contact: media@integrargrupa.com

Q1:

There is no and never was a partnership between Integral inženjering ad Laktaši and Hydrostroy AD in Bulgaria and Dimex 2000 Company in Romania. Alleged representatives of Dimex 2000 contacted us on September 27, 2024 with the offer of cooperation on the Cluj city bypass project, but we rejected that cooperation in writing first on 02 October 2024, and then again on 15 October 2024. After that, the authorized persons of Integral inženjering had no contact of any kind with said companies. We have never authorized any other person to communicate, negotiate, deliver or sign documents of any kind with them.

Q2:

On 19 September 2025, Integral inženjering ad Laktaši, immediately after learning from the media about the signing of the contract dated 07 May 2025, informed the Cluj-Napoca City Hall administration, and then other relevant executive and investigative bodies in Romania and Bosnia and Herzegovina, expressing suspicion that the submitted Integral's documents were forged.

Q3:

The data about Mr. Ioan Scrutu are not known to us. Until now, we have not participated in the Romanian market. We have never partnered with Dimex 2000.

Q4:

The data about Hydrostroy AD are not known to us. Until now, we have not participated in the Bulgarian market. We have never been partners with the company.

Q5:

Integral Inženjering was on the list of sanctioned entities in the period October 2022 - April 2024. During this period, through active communication with the US administration, we documented and explained our business activities in detail. That convincing evidence led to the removal of the company from the list. We emphasize that Integral inženjering during its 37 years of existence has realized over 400 contracts with a total value of over €1.5 billion. The majority, about 70% of that value, was realized on contracts financed by the European Investment Bank (EIB), European Bank for Reconstruction and Development (EBRD), Western Balkans Investment Fund (WBIF) and other international sources. This means participation in international tenders with multiple participants, the supervision of specialized companies from EU countries and the control of the aforementioned banks. Our business is professional and transparent (check the details of the data on the website www.integral.ba) and additionally professionalized through the procedure of removal from sanctions.

Also:

Yesterday, on 03 February 2026, the case was published in the regional media. Due to the attention it has attracted and to protect the interests of our company, we have issued a detailed press release, which is attached.

Best regards,
